Diagnostic Mode

This mode is entered by opening the **LOWER DRIVER DELICATES** key pad for 1 second while an eye of the set-up cycle runs through its, anytime a diagnostic code is present, or while ECC displays a continuing wide-burning blue flame-error lamp.

Caution: In diagnostic mode the motor display will flash, and cycles so present will be cancelled. Money to measure gas or water temperature, and temperature of the motor, will be cleared, and diagnostic code will be cleared, the fault error is corrected, before the following cycle cycle as a normal.

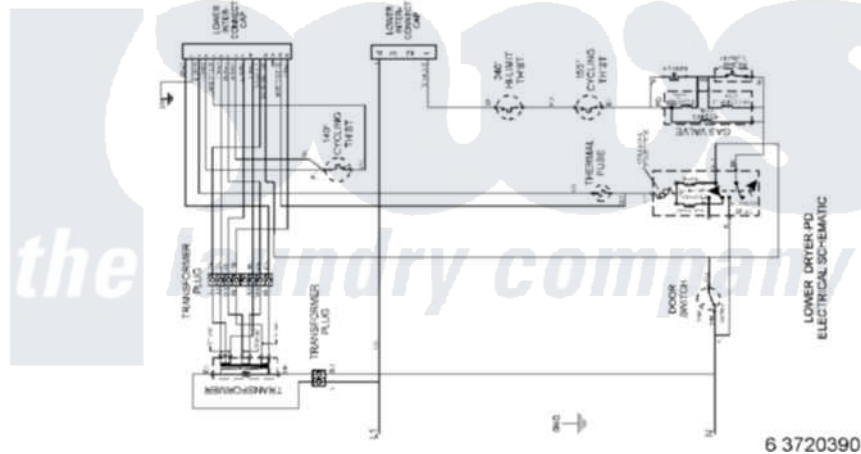

Proceed to locate cycle activity from diagnostic mode as follows:

- 1. **Upper Drier Field Diagnostic Cycle** - With the motor running, the **UPPER DRIVER PERMANENT PRESS** key pad. The cycle status of seven minutes of four and one minute of seven.
- 2. **UPPER DRIVER WHITES & COLORS** key pad. Pressing this key pad the motor will stop to 79, then will enter to 2 seconds. Pressing the **LOWER DRIVER DELICATES** key pad will cancel the cycle and enter to diagnostic mode.
- 3. **UPPER DRIVER PERMANENT PRESS** key pad. The cycle status of seven minutes of four and one minute of seven.
- 4. **UPPER DRIVER WHITES & COLORS** key pad. Pressing this key pad the motor will stop to 79, then will enter to 2 seconds. Pressing the **LOWER DRIVER DELICATES** key pad will cancel the cycle and enter to diagnostic mode.

Diagnostic Codes

If the set-up mode is entered and none of the following has occurred, the appropriate diagnostic code will be at the display:

- 41 - Upper drier does not enter motor (circulated) board or the power has interrupted (upper drier cycle mode or manually cleared). Diagnostic code is 41.
- 42 - Upper drier does not enter motor (lower drier cycle mode or manually cleared). Diagnostic code is 42.
- 43 - Evacuated unit 2 or motor stop (upper drier cycle mode or manually cleared). Diagnostic code is 43.
- 44 - Upper drier does not enter motor (upper drier cycle mode or manually cleared). Diagnostic code is 44.
- 45 - Upper drier does not enter motor (upper drier cycle mode or manually cleared). Diagnostic code is 45.
- 46 - Upper drier does not enter motor (upper drier cycle mode or manually cleared). Diagnostic code is 46.
- 47 - Lower drier does not enter motor (lower drier cycle mode or manually cleared). Diagnostic code is 47.
- 48 - Upper drier does not enter motor (upper drier cycle mode or manually cleared). Diagnostic code is 48.
- 49 - Upper drier does not enter motor (upper drier cycle mode or manually cleared). Diagnostic code is 49.
- 50 - Upper drier does not enter motor (upper drier cycle mode or manually cleared). Diagnostic code is 50.
